#### DILUTION RATE

#### DIRECTIONS FOR PRODUCT USE:

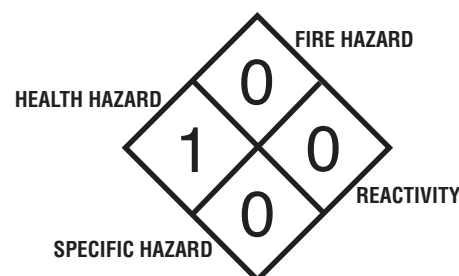

USE SPARINGLY AS DIRECTED

1. Floor surface should be thoroughly cleaned using a neutral cleaner and dry mop to remove any loose grit or dirt particles from floor surface. Remove any rubber burns or similar marks.
2. Allow surface to dry completely.
3. Using a clean mop, apply a thin coat of the diluted solution. Do not allow solution to puddle on surface.
4. Allow to dry, then buff with a high speed polishing pad. Turn or replace pad as required for best results.

NOTE: Frequency of restorer application will be determined by floor traffic and acceptable appearance levels. Under normal conditions, application once a week will ensure floor appearance.

It is recommended that protective gloves and safety glasses be worn when using this and all cleaning products. Refer to SDS for further safety information.
