

# Liqui-Thaw

## **Liquid Ice Melt**

Líquido Para Derretir Hielo

- Non-Corrosive Ready-To-Use
- Harmless To Asphalt & Concrete

### **Technical Data Sheet**

#### PRODUCT DESCRIPTION:

A non-corrosive, ready-to-use liquid anti-icer and de-icer formulated with ethylene glycol, calcium chloride, surfactants and polar solvents.

#### **USES:**

Melts ice and snow and helps to prevent freezing on walkways, driveways, roads, culverts, bridges, ramps, loading docks, parking lots, airport runways etc. Use to help melt ice and snow on equipment surfaces.

#### **ADVANTAGES:**

Prevents ice accumulation and to melt ice and snow already on ground/floor surfaces. Will not chemically harm concrete or asphalt.

#### **SPECIFICATIONS:**

**Active Ingredients: 75%** 

pH: 6-7

Color: Blue-Green

Solubility in Water: Complete

**Odor: None** Flash Point: None

Viscosity: Thin Bodied Liquid Weight per Gallon: 10 Lbs.

#### PRODUCT/CONTAINER **DISPOSAL:**

Dispose of used/unwanted product according to state and local regulations. Offer container for recycling.

#### **SIZES AVAILABLE:**

1 Gallon Bottle, 5 Gallon Pail, 30 & 55 Gallon Drums.

#### **DIRECTIONS FOR PRODUCT USE:**

- 1. Liberally spray, sprinkle or pour on surface to be treated.
- 2. On glazed ice surfaces, score ice in several places before application to prevent runoff and to allow better penetration.
- 3. In extreme conditions, more than one application may be necessary.
- 4. For Municipal, County and State Street & Highway Departments: Spray or pour on sand to help prevent freez ing and caking; improving thawing qualities of sand and allow for better traction.

NOTE: Continual use will increase the frequency of the freeze-thaw cycle which is responsible for the deterioration of concrete.

It is recommended that protective gloves and safety glasses be worn when using this and all cleaning

Refer to SDS for further safety information.
