

# Bounce Synthetic Gym Floor Finish

Cera Sintética Para Pisos de Gimnasio

- Water-Based • Protects Rubber Floors
- Durable • Scuff Resistant

## Technical Data Sheet

### PRODUCT DESCRIPTION:

A water-based, acrylic urethane sealer/finish specifically formulated for synthetic gym and athletic floors.

### USES:

For use on synthetic gym and athletic floors as a sealer, permanent finish and protectorant.

### ADVANTAGES:

Tough wear properties. Excellent adhesion. Long lasting. Provides a flexible protective coating with outstanding durability and scuff resistance.

### SPECIFICATIONS:

- Total Solids: 20%
- pH: 9
- Color: Opaque, Off White
- Solubility in Water: Complete
- Odor: Acrylic
- Flash Point: N/A
- Viscosity: Heavier Than Water
- Weight per Gallon: 7.45 Lbs.

### PRODUCT/CONTAINER

#### DISPOSAL:

Dispose of used/unwanted product according to state and local regulations. Offer container for recycling.

#### SIZES AVAILABLE:

5 Gallon Pail

Recyclable packaging

### DIRECTIONS FOR PRODUCT USE:

**PREPARATION OF FLOOR:** Strip floor thoroughly, making sure that all old finish is removed. Rinse completely with water and allow to dry.

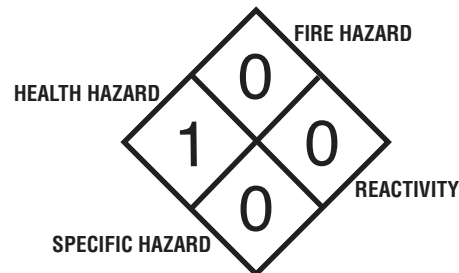

**APPLICATION OF SEALER:** Using a clean synthetic mop or applicator, apply a thin even coat and allow to dry for 30 minutes. For higher gloss and maximum durability a second coat should be applied, allowing 30 minutes of drying time between coats depending upon temperature and humidity.

**MAINTENANCE:** Sweep floors daily to remove all excessive soil, dirt and grit with a clean, treated dust mop. Damp mop as necessary with a neutral cleaner. This will not damage or dull gloss. Apply an additional coat when necessary.

Coverage: 1500-2000 square feet per gallon

It is recommended that protective gloves and safety glasses be worn when using this and all cleaning products. Refer to MSDS for further safety information.
