Yellow Polishing Powder

Restores Gloss to Dulled Marble Surfaces

- *Perfect for High Traffic Areas Requiring Periodic Maintenance*

Technical Data Sheet

PRODUCT DESCRIPTION:

A pre-mixed powder designed to polish marble that has been worn down to a dull surface.

USES:

Ideal for periodic maintenance of high trafficked polished stone floors and etched areas.

ADVANTAGES:

Restores a beautiful high gloss shine to worn surfaces. Can be used to touch up high traffic areas without the need to do the entire floor. Odorless.

SPECIFICATIONS:

pH: N/A

Color: Off-White Powder

Solubility in Water: N/A

Odor: None

Flash Point: None

Viscosity: N/A

PRODUCT/CONTAINER

DISPOSAL:

Dispose of used/unwanted product according to state and local regulations. Offer container for recycling.

SIZES AVAILABLE:

2 Lb. Container, 40 Lb. Pail

Formula
#S301

DIRECTIONS FOR PRODUCT USE:

SURFACES CAN VARY AND MAY REACT DIFFERENTLY TO THIS PRODUCT. ALWAYS TEST PRODUCT IN AN INCONSPICUOUS AREA FOR ADVERSE REACTIONS.

1. Apply 3-5 oz. of this product to the stone surface to be treated.
2. Apply a small amount of water to the powder creating a slurry consistency. DO NOT allow slurry to sit or dry on the surface being polished.
3. Buff the polishing solution (slurry) into the surface using a slow speed (140-300 RPM) polishing machine equipped with a tampico brush, hog's hair pad or white nylon pad.
4. Move the machine slowly and evenly, doing a 10-20 sq. ft. area at a time. Add more water or powder as necessary to maintain the slurry consistency.
5. Check polishing process every 15-40 seconds to prevent burn marks and monitor progress.
6. Neutralize completed areas with fresh water and Multi-Kleen. Do not let any splattered slurry remain on surrounding surfaces, clothing or machinery.

It is recommended that protective gloves and safety glasses be worn when using this and all cleaning products. Refer to SDS for further safety information.
