## Granite Polishing Gel

- *Odorless • Easy Application*
- *Restores High Gloss to Polished Granite*

### Technical Data Sheet

#### **PRODUCT DESCRIPTION:**

A unique formula designed specifically for polishing new granite floors or for re-polishing old granite floors that have been dulled by heavy foot traffic.

#### **USES:**

Restores high gloss to polished granite surfaces.

#### **ADVANTAGES:**

Can be used on smooth surfaces, or as an alternative to tin oxide. Easy application. Odorless.

#### **SPECIFICATIONS:**

pH: 8

Color: Colorless

Solubility in Water: Miscible

Odor: Odorless

Flash Point: >200° F

Viscosity: Gel-like Consistency

#### **PRODUCT/CONTAINER**

#### **DISPOSAL:**

Dispose of used/unwanted product according to state and local regulations. Offer container for recycling.

#### **SIZES AVAILABLE:**

10 Lb. Pail

Formula  
#S304

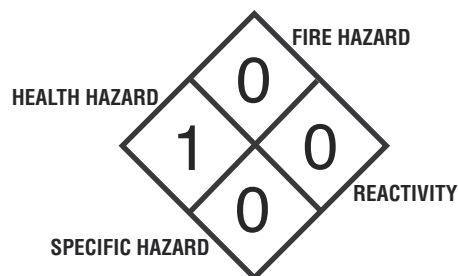

#### **DIRECTIONS FOR PRODUCT USE:**

SURFACES CAN VARY AND MAY REACT DIFFERENTLY TO THIS PRODUCT. ALWAYS TEST IN A SMALL INCONSPICUOUS AREA FOR ADVERSE REACTIONS.

1. Wash the floor thoroughly by using Ultra-Kleen and a single disc machine equipped with an appropriate disc. Make sure all dirt and old wax are removed.
2. Use a wet vac to remove all residue and allow to dry completely.
3. Pour a small amount of gel (approx. 1 oz.) directly on floor and work the product in 15-20 sq. ft. sections with a single disc machine (150-400 RPM; 80 lbs. weight) or a polishing-grinding machine. Use a small amount of water to prevent the gel from drying.
4. Distribute the product evenly and continue to work it until the gel is dry and the desired polish is achieved.
5. Repeat this process on very porous floors.
6. Wash thoroughly with Multi-Kleen or Ultra-Kleen to remove residue.
7. Rinse thoroughly and allow to dry.

It is recommended that protective gloves and safety glasses be worn when using this and all cleaning products. Refer to SDS for further safety information.
